1) Executive Summary

The internal affairs and investigations division of Acme Inc. conducted this forensic analysis of Neil Flannigan's virtual machine after the RIAA and the MPAA notified the division manager that the network was used for copyright infringement. The RIAA and MPAA are trade organizations that detect the unlicensed distribution of copyrighted content such as music and movies.

The manager checked network logs, and the traffic led to Neil Flannigan. When the computer was seized, it was discovered that Neil Flannigan downloaded VMWare. This software allows users to have several operating systems on one computer, this software is against company policy since having several user environments can conceal unauthorized activity. When Mr. Flannigan was interviewed, he stated he only downloaded a Linux distribution, which is software for the operating system. He claimed it was quicker to do so over BitTorrent than a direct download. He denied having downloaded any movies or music files. This investigation aimed to determine if Mr. Flannigan was engaging in copyright infringement through BitTorrent. An encase image, which is a digital forensic copy, was given for one of the Virtual Machines for analysis.

BitTorrent is a peer-to-peer file-sharing method. It lets users download and share large files by fragmenting them into smaller ones. This differs from direct downloads, which download the complete file from one server. Instead, BitTorrent downloads the different pieces of one file from different sources, all at once, making it faster. BitTorrent downloads happen through torrent files (.torrent), which are metadata files that contain instructions on how the BitTorrent client should download the file and connect with other peers to download the file pieces they have. The BitTorrent client is the software that downloads content from torrent files. BitTorrent downloads also happen through magnet links, which don't require a torrent file; instead, they use a unique numeric value in the link that identifies the file being downloaded over the BitTorrent network.

The analysis of the virtual machine showed that Mr. Flannigan downloaded two BitTorrent clients, qBitTorrent and uTorrent, he also had uTorrent.WebView2 downloaded, which allows browser streaming of torrent files, then having to download them, and BitTorrentHelper, which assists torrent downloads. Inside of the downloads folder the following torrents were found:

- 1) 05-star.-wars.-4-k-77.1080p.no-dnr.-35mm.x-264-v-1.0-et-hd_archive.torrent
- 2) Hans Zimmer - The World of Hans Zimmer â€œ Part II A New Dimension (2025) [24Bit-48kHz] FLAC [PMEDIA].torrent
- 3) ubuntu-24.10-desktop-amd64.iso.torrent
- 4) Weird Science (1985) [720p] [BluRay] [YTS.MX].torrent

The downloads folder contained a folder named Hans Zimmer - The World of Hans Zimmer “ Part II A New Dimension (2025) [24Bit-48kHz] FLAC [PMEDIA] which contained 29 audio files that came from the Hans Zimmer torrent file. There was also a folder named 05-star.-wars.-4-k-77.1080p.no-dnr.-35mm.x-264-v-1.0-et-hd which had the disclaimer smovie files and images associated with the Star Wars movie but it did not contain the movie. It was confirmed that the disclaimer video files came from the Star Wars torrent file. Confirmation of the content coming from the torrent file was done through hash analysis of the content matching the hashes inside the torrent files.

The downloads folder also contained a full download of a sonic movie without a torrent file named Sonic The Hedgehog 3 2024 1080p WEB-DL HEVC x265 5.1 BONE.mkv. There was also a copy of the same full movie in the recycle bin. The qBittorrent client’s settings were investigated and revealed that Mr. Flannigan had the URL association configured to be associated with magnet links, meaning he could view content without torrent files.

The qBitTorrent logs were also analyzed, and they confirmed that Mr. Flannigan ran qBitTorrent on 2025-02-02 at 13:19:04 UTC. The log confirmed that he downloaded all the torrent files, including the "Sonic The Hedgehog 3 2024 1080p WEB-DL HEVC x265 5.1 BONE.mkv" torrent, which was downloaded at 13:34:47 UTC and shortly removed at 13:34:47 UTC. The log also says that the Hans Zimmer torrent was removed at 13:47:03 UTC after downloading at 13:43:06, and the Star Wars torrent was removed at 13:47:06 UTC after downloading at 13:46:40 UTC.

Mr. Flannigan’s Microsoft Edge history was inspected, showing searches for torrent websites like The Pirate Bay. The history confirmed that he accessed torrent files on his browser and used remote.utorrent.com, which also provides remote access to torrents. It is also important to note that he searched for “The Best Free VPNs for Torrenting in 2025.” Removing torrents and searching for VPNs removes traces of downloading torrents.

A log file named 000003.log was found inside the uTorrent WebView2 folder. This file contained logs that confirmed the usage of uTorrent WebView. Many entries went to rainberrytv.com, a torrent streaming website part of BitTorrent.

It is also important to note that another folder in downloads named [FTUApps.com]—Windows 10 Home 22H2 Build 19045.4046 With Office 2021 Pro Plus (x64) En-US March 2024 was found. Its contents matched those of the torrent file stored in the qBittorrent client folder, 30cabbc201a2c10002f26eef3e5507df59305abf.torrent. The contents include a folder named Websites you may like, with the following URL: 1. OneHack.us Premium Cracked Accounts-Tutorials-Guides-Articles Community Based Forum. URL, which is a website containing hacking tutorials.

2) Evidence Analyzed

Device Name	WINDEV2407EVAL
Physical Disk Size	134 GB
Acquisition MD5 Hash	6f72e904b54580ce7f465a65ac0afd84
Acquisition SHA1 Hash	ab5f5f08b540a21b84b6f1d3686b2c104303a701
Verification MD5 Hash	6f72e904b54580ce7f465a65ac0afd84
Verification SHA1 Hash	ab5f5f08b540a21b84b6f1d3686b2c104303a701
Operating System Version	Windows 10 Enterprise Evaluation 6.3
File System	NTFS
User Accounts	Default Default User Public User
Last Logon Time	User 02/02/2025 21:47:21 UTC

3) Examination & Findings

3a) Torrent Clients & Torrent Files

Mr. Flannigan downloaded two BitTorrent clients: qBitTorrent and uTorrent. The qBitTorrent folder was found within the user's local app data directory. This folder housed a subfolder named logs, which stored the Qbittorrent log file that tracked all torrents downloaded using the Qbittorrent client. Additionally, the qBitTorrent folder included BTBackup, which contained a torrent file named 30cabbc201a2c10002f26eef3e5507df59305abf.torrent. Within the local app data directory was a BitTorrentHelper folder, which assists with torrenting. Inside the local low folder of the app data was a folder named uTorrent.WebView2 downloaded, which enables browser streaming of torrent files instead of downloading them. This folder also contained a log file recording the user's activity while browsing torrents online. Lastly, inside the app data roaming folder was the uTorrent folder, which stored the ubuntu-24.10-desktop-amd64.iso.torrent. This torrent was in the uTorrent folder and the user's downloads folder. The Windows prefetch file, which monitors executables in the system, indicates that uTorrent was actively used and was last run on 2025-02-02 at 21:14:44 UTC.

In the downloads folder, the following torrent files were found:

1) 05-star.-wars.-4-k-77.1080p.no-dnr.-35mm.x-264-v-1.0-et-hd_archive.torrent

This torrent file had a folder with its contents in the user downloads named 05-star.-wars.-4-k-77.1080p.no-dnr.-35mm.x-264-v-1.0-et-hd which had the disclaimer movie clips and images associated with the Star Wars movie but it did not contain the movie. To check if the contents of the disclaimer and images came from the torrent file, the torrent file was decoded since torrent files have a type of coding named bencode, and the torrent files are considered a torrent dictionary, which contains the torrent name, files, and their path, and information about the pieces length.

The SHA1 of two items, which is a numerical output of the data within the content files, was calculated and checked if they were in the torrent, which confirmed that the content stored about the torrent initially came from the torrent, which were the jpg and the disclaimer movie clips:

Item 5 hash 01-40th-Fanfare.mkv : a143b61335677baa0add0ad8fec2fc354569ac74 (Match the torrent file)

Item 11 04-BBFC.mkv: 84d77ec7195ce1ac86bb0802ff4b5d0490adc318 (Match the torrent file)

Although the content matched the torrent, the full Star Wars movie was not on the virtual machine. After checking the Recent Documents Artifact, which is an artifact generated by Windows that displays recently opened files by the user, it had the following entry:

Path : C:\Users\User\Downloads\05-star.-wars.-4-k-77.1080p.no-dnr.-35mm.x-264-v-1.0-et-hd\

05-Star.Wars.4K77.1080p.no-DNR.35mm.x264-v1.0[EtHD].mkv

Path ID: -1

Date Accessed: 0000-00-00 00:00:00

This means that the user did have the Star Wars movie at some point, but since the date accessed is zero, it indicates that the user manipulated the file's timestamps.

2) Hans Zimmer - The World of Hans Zimmer â€œ Part II A New Dimension (2025) [24Bit-48kHz] FLAC [PMEDIA].torrent

This torrent also contained a content folder in the downloads folder named Hans Zimmer—The World of Hans Zimmer â€œ Part II A New Dimension (2025) [24Bit-48kHz] FLAC [PMEDIA]. This folder contained 29 audio files from the Hans Zimmer torrent file. We confirmed this by calculating the SHA1 hashes for five pieces of the content and checking for them in the torrent file.

Piece 1: 418b7ce7a2bbe090465cb0393b85c458488e655d (Match the torrent file)

Piece 2: b4d5a2918a748d605f6bed40f372d93eace7ec10 (Match the torrent file)

Piece 3: d0579aa1f7f43c61f12acc3f2e0211f259660750 (Match the torrent file)

Piece 4: d5a51dd25fbf9100671a711b0dedb45747797861 (Match the torrent file)

Piece 5: 1baea34386badf500e624a17d665f1379eda2c95 (Match the torrent file)

3) ubuntu-24.10-desktop-amd64.iso.torrent

The Ubuntu torrent had a content file named ubuntu-24.10-desktop-amd64.iso, to check this file came from the torrent, SHA1 hashes were calculated and checked in the torrent file, which revealed the content originated from the torrent file. This is the only torrent that Neil Flannigan stated to have downloaded since it is the Linux Distribution.

Piece 1: 58a531a7197e00493675ec12b4982d12860beed4 (Match the torrent file)

Piece 2: 209d52690f294fc8a8a6040c3459d947bf7d2066 (Match the torrent file)

Piece 3: 66660abf5c04090b7fec062601a7fe39a23c72a5 (Match the torrent file)

Piece 4: 7743d1a2e3c2a7a6dbcc5d09bcbaf09f0ffaf048 (Match the torrent file)

Piece 5: 964c3e17ff69d82138a2fcbb763a488811a3a4fc (Match the torrent file)

4) Weird Science (1985) [720p] [BluRay] [YTS.MX].torrent

It is important to note that this torrent file was found in downloads. Although the user downloaded this torrent file, they did not download the content, meaning it only contains information on how to obtain the content files. This torrent is for a movie download.

5) **Torrent File inside of BT Backup:** 30cabbc201a2c10002f26eef3e5507df59305abf.torrent

Although this torrent file was not in the downloads folder, it was inside the BT Backup folder of the qBitTorrent client, the contents coming from the torrent were stored in a folder in downloads named [FTUApps.com] - Windows 10 Home 22H2 Build 19045.4046 With Office 2021 Pro Plus (x64) En-US March 2024. Three pieces from the content had their SHA1 calculated and they matched the torrent file.

Piece 1: f6509b360bf528246b5a644a1efe844a69bc5d37

Peice 2: 9d419f9819b37f1fce90b83f864879f3166fb1ba

Piece 3: 244fe5331ba64f976a3586edfc5d4f1d10ff0936

The content files were the following:

1. OneHack.us Premium Cracked Accounts-Tutorials-Guides-Articles Community Based Forum.url
2. FreeCoursesOnline.me Download Udacity, Masterclass, Lynda, PHLearn, etc Free.url
3. Windows 10 X64 22H2 19045.4046 Home and Office 2021 en-US MARCH 2024.iso

3b) QbitTorrent Log File

The QbitTorrent Log file confirmed that it was actively being used. According to the log, it was first run on 2025-02-02 at 13:19:04 (ref log 1). The log also confirms that the user turned on local peer discovery, peer exchange, and distributed hash table while having anonymous mode turned off (logs 6-9). These settings indicate the system was being prepared for peer exchange activities such as uploading and downloading torrent files.

The log file confirms that the following torrents were added :

2025-02-02 13:31:07 - Added new torrent. Torrent: "Sonic The Hedgehog 3 2024 1080p WEB-DL HEVC x265 5.1 BONE.mkv"
2025-02-02 13:32:56 - Added new torrent. Torrent: "8f1af13f41bc3b2efd25d2337941d085d8986d7a"
2025-02-02 13:34:03 - Added new torrent. Torrent: "05-star.-wars.-4-k-77.1080p.no-dnr.-35mm.x-264-v-1.0-et-hd"
2025-02-02 13:36:11 - Added new torrent. Torrent: "[FTUApps.com] - Windows 10 Home 22H2 Build 19045.4046 With Office 2021 Pro Plus (x64) En-US March 2024"
2025-02-02 13:39:11 - Added new torrent. Torrent: "Hans Zimmer - The World of Hans Zimmer – Part II A New Dimension (2025) [24Bit-48kHz] FLAC [PMEDIA]"

It is important to note that the sonic movie that does not have a torrent file on the system was logged in qBitTorrent as a finished download. Still, it was then stopped and removed, which can explain the reason why the torrent file was not on the system and might have been accessed through magnet links and web browsing:

2025-02-02T13:34:47 - Torrent download finished. Torrent: "Sonic The Hedgehog 3 2024 1080p WEB-DL HEVC x265 5.1 BONE.mkv"
(N) 2025-02-02T13:40:06 - Torrent stopped. Torrent: "Sonic The Hedgehog 3 2024 1080p WEB-DL HEVC x265 5.1 BONE.mkv"
(N) 2025-02-02T13:40:14 - Torrent removed. Torrent: "Sonic The Hedgehog 3 2024 1080p WEB-DL HEVC x265 5.1 BONE.mkv"

The log also confirms that the user interacted with peers while torrenting, as it recorded that an external IP address was detected:

2025-02-02 13:19:19 - Detected external IP. IP: "172.117.141.61"

The log also recorded many instances of removing torrents which were:

Sonic The Hedgehog 3 that was removed at 13:40:14 when it was downloaded at 13:34:47.

Hans Zimmer's Album that was removed at 13:47:03 when it was downloaded at 13:43:06.

Star Wars 4K 77 that was removed at 13:47:06 when it was downloaded at 13:46:40.

The behavior pattern of removing torrents is significant since it does not mean the torrent is removed from the system—that is something the user must do themselves—but instead it is a way to stop allowing other peers to download your content. This mechanism covers torrenting behavior and traces.

3c) Microsoft Edge History

The Microsoft Edge History showed that Mr. Flannigan made different searches about torrenting, such as “ How does BitTorrent work” (entry 11), “movie torrent downloads” (entry 46), “Star Wars torrent” (entry 110), “Game of Thrones torrent” (entry 117). Mr. Flannigan also searched for VPNs covering traces of torrenting files, such as “ Free VPN for Torrenting” (entry 56).

History also shows that Mr. Flannigan went on different websites for torrenting, such as **The Pirate Bay**, the most known piracy website, referring to entries 75, 76, 78, 86, 87, and 89. He visited other websites for torrenting, such as <https://yts.mx/trending-movies> Trending YIFY Movies Torrents Downloads (entry 64). Going on such websites shows BitTorrent was not just used for a Linux distribution.

The history also shows that he accessed several torrents online, which correlates with the download of torrents in the qBittorrent log. He accessed <https://archive.org/details/05-star.-wars.-4-k-77.1080p.no-dnr.-35mm.x-264-v-1.0-et-hd> (entry 116) which matches the download in the qBitTorrent log #35 which was "(Added new torrent. Torrent: "05-star.-wars.-4-k-77.1080p.no-dnr.-35mm.x-264-v-1.0-et-hd).

The cross analysis of the qbittorrent log and Microsoft Edge history confirmed that Star Wars was watched using magnet links. This is because the history log shows he accessed the following torrent:

114:

<http://remote.utorrent.com/send?btih=8F1AF13F41BC3B2EFD25D2337941D085D8986D7A&dn=Star.Wars.BDRip.COLLECTION.XviD.HUN-BiTZoNe&message=&sid=155cc4e&cid=2337325447/1000> µTorrent Remote - Star.Wars.BDRip.COLLECTION.XviD.HUN-BiTZoNe 1 0 13383005560741456 0

The hash inside of this link matches the qbittoren log entry #35:

Added new torrent. Torrent: "8f1af13f41bc3b2efd25d2337941d085d8986d7a"

Further investigation was conducted on the Qbittorrent Client Info file, which stated that URL associations were turned on and associated with magnet links as "qBittorrent. "Url.Magnet" in settings.

The history also showed that remote utorrent was used, such as in entry 112 <http://remote.utorrent.com/tiny/59Nxdy> µTorrent Remote - Star.Wars.BDRip.COLLECTION.XviD.HUN-BiTZoNe 1 0 13383005560741456 0.

It also showed that he visited VPN websites such as entry 59 <https://www.vpnmentor.com/blog/10-best-torrent-websites/#YTS> 12 Best Torrent Sites: Safe and Still Working in 2025 1 0 13383005196392770 0

He also searched for "Free VPN for torrenting" (entry 56)

All these searches and website access show that magnet links were used, copyrighted material was viewed on the browser, and that an effort to use VPN, which can conceal information, was shown in the Microsoft Edge history log.

3c) uTorrent.WebView2 Log

A log file was found in the uTorrent.WebView2 folder within the local low app data folder. This log file was named 000003.log and included several entries confirming that uTorrent Web View was in use. It featured multiple entries such as (Lnamespace-5c43ecdd_fbc5_496e_982e_7ceafb8bc684-http://video.rainberrytv.com/), which link to a website called Rainberry TV, a part of BitTorrent that facilitates content streaming. Additionally, the links in the log file contained ad servers like (safeframe.google syndication.com), which frequently appear on torrenting sites that offer free content.

4) Investigative Leads

4a) Investigation on other Virtual Machines

Since this investigation's analysis was based on one of Neil Flannigan's virtual machines, further investigation of other virtual machines associated with him should be conducted. This is because Neil Flannigan downloaded VMware, which violates company policy. VMware enables the user to maintain multiple computing environments, suggesting that other illegal content piracy activities may exist within these environments. For further analysis, a forensic image should be taken of all virtual machines to preserve data integrity and examine user behavior and downloads across the virtual machines.

4b) Further investigation on the 30cabbc201a2c10002f26eef3e5507df59305abf .torrent file

This torrent file, located in the BT Backup folder within qBitTorrent, should be further examined since it is associated with URLs from a hacking tutorial website. Investigating the other virtual machines in relation to this torrent file and its contents may help determine if Neil Flannigan engaged in any hacking programs or tutorials on computing environments besides the virtual machine image created for this investigation.

4c) Investigation on any content uploaded by Neil Flannigan on BitTorrent

The qBittorrent log confirmed that Neil Flannigan interacted with an external IP address, suggesting that he may have downloaded infringing content onto BitTorrent, which other users might still be downloading. Since he possesses parts of the copyrighted material, further investigation can be conducted by obtaining legal permission from BitTorrent to verify whether his IP address is linked to any copyrighted material that remains accessible and is being downloaded by other peers using BitTorrent.

5) Recommendations

5a) Network Monitoring

It is recommended that ACME.inc needs to increase the extent of their network monitoring since this issue was only uncovered after being notified by the MPAA and RIAA. This can be done by implementing a stronger network intrusion detection system that can provide the company with real-time network traffic monitoring that is constantly monitored in order to prevent copyrighted material from being accessed on the network, and to be quickly detected if done.

5b) Implementing Authorization for Software Downloads & Network Filtering

Since ACME.inc has a solid company policy that prohibits downloading VMWare, they should implement strict software download control on the company system that does not give authority for external software downloads unless authorized by the IT department. The IT department should also implement network filtering, such as DNS filtering, which blocks any domains related to BitTorrent, and they should implement port blocking, which blocks access to any ports associated with the use of the BitTorrent website. The IT department should also inspect their firewall capabilities and determine if the firewall configuration is solid enough not to be bypassed by company employees, preventing unauthorized downloads.

6) Conclusions

This investigation by the internal affairs and investigations division of Acme.Inc occurred after receiving a notification by the RIAA & MPAA that the network had been utilized for copyright infringement. After the network logs had been observed, the traffic led to Neil Flannigan. It was discovered he had downloaded VMWare, which is against company policy. When Neil Flannigan was interviewed, he mentioned that he only downloaded a Linux distribution because it was faster to do so over BitTorrent than a direct download. An Encase image of one of his virtual machines was provided for forensic analysis. This forensic analysis aimed to determine if Neil Flannigan was engaging in content piracy through BitTorrent, the program used for content piracy, and the files used in the infringement.

The results of this analysis confirmed that Neil Flannigan had two BitTorrent clients: qBitTorrent and uTorrent. He also had uTorrent.WebView2 downloaded, which enables browser streaming of torrent files instead of having to download them, and BitTorrentHelper, which facilitates torrent downloads. The virtual machine contained the following torrent files:

- 1) 05-star.-wars.-4-k-77.1080p.no-dnr.-35mm.x-264-v-1.0-et-hd_archive.torrent
- 2) Hans Zimmer - The World of Hans Zimmer â€œ Part II A New Dimension (2025) [24Bit-48kHz] FLAC [PMEDIA].torrent
- 3) ubuntu-24.10-desktop-amd64.iso.torrent
- 4) Weird Science (1985) [720p] [BluRay] [YTS.MX].torrent
- 5) 30cabbc201a2c10002f26eef3e5507df59305abf.torrent

After calculating SHA1 values for the Star Wars content file, it confirmed that the disclaimer scene and JPGs came from the torrent file, but the full movie was not on the computer. The movie was streamed using magnet links in the browser, as his Microsoft search history showed access to the files with the MKV using the hash. The Hans Zimmer folder, which contained 29 audio files, originated from the torrent files confirmed by SHA1 hash calculations. The same applies to the ubuntu-24.10-desktop-amd64.iso.torrent, which was the Linux distribution he claimed to have downloaded. The 30cabbc201a2c10002f26eef3e5507df59305abf.torrent file also matched its content file, linking to hacking courses and tutorial websites. Although he had the Weird Science (1985) [720p] [BluRay] [YTS.MX].torrent file, he did not have any content from this torrent on his virtual machine. He also had a full movie downloaded named Sonic The Hedgehog 3 2024 1080p WEB-DL HEVC x265 5.1 BONE.mkv, and he had a copy of the full movie in the recycle bin.

The qBittorrent logs confirm that some of the torrents found on the virtual machine were downloaded using qBittorrent, such as the Sonic Movie, Hans Zimmer Album, Star Wars, and The Weird Science torrent file. The qBitTorrent log showed that after completing torrent downloads, the user would remove them. This is a way to prevent torrents from seeding,

854 Downey Way. RRB 101 • Los Angeles, CA 90089-1456

www.itp.usc.edu • Phone: (949) 992-5084 • Email: rmaraga@usc.edu

which means stopping the content from being visible to other BitTorrent users to download from. This covers traces of torrenting files and owning torrented file pieces.

The Microsoft Edge history also confirmed that Neil Flannigan conducted numerous searches to understand how BitTorrent works. He visited several websites related to content piracy, primarily The Pirate Bay, the most popular torrent site with an array of torrent files available. He also searched for Star Wars torrent movies and other queries concerning torrent movie downloads. The capabilities of the qBittorrent client were examined, revealing that the user had configured magnet links to be associated with the URLs, which had to be set up by the user since magnet links are not automatically enabled with the qBittorrent client download. This indicates how Neil Flannigan could have been viewing torrent content that was not located in his file system. Additionally, the log file for uTorrent.WebView2 contained numerous logs that provide evidence of streaming torrents online.

In conclusion, since there was a complete Sonic movie downloaded from qBitTorrent, a full Hans Zimmer album containing 29 audio files that originated from the torrent file downloaded on qBitTorrent, some content from the Star Wars torrent file, and the presence of a torrent file associated with URLs for hacking tutorial websites, as well as a torrent for the movie Weird Science (1985) [720p] [BluRay] [YTS.MX], it indicates that Neil Flannigan was engaged in content piracy using BitTorrent. The only torrent file that aligns with his claim of using BitTorrent for downloading a Linux distribution was the ubuntu-24.10-desktop-amd64.iso.torrent. He denied having downloaded any movies or music files, yet they were found in his downloads folder. Additionally, the Qbittorrent logs and Microsoft Edge history of the user confirm that Neil Flannigan was searching for pirated content rather than just using it for a Linux distribution. Further investigation is required on the content linked with the 30cabbc201a2c10002f26eef3e5507df59305abf.torrent file since it saved URLs like OneHack.us Premium Cracked Accounts-Tutorials-Guides-Articles Community Based Forum.url, which contains hacking guides. Therefore, other network logs and virtual machine behaviors should be examined to determine if any hacking or unauthorized activities were conducted through tutorials saved on the links associated with the torrent file he had on the system.

7) Appendix

1) Qbittorrent Logs

Log Entry Number	Log Content
1	N) 2025-02-02T13:19:04 - qBittorrent v5.0 .3 started. Process ID: 12676
2	(N) 2025-02-02T13:19:04 - Using config directory: C:\Users\User\AppData\Roaming\qBittorrent
3	(N) 2025-02-02T13:19:19 - Trying to listen on the following list of IP addresses: "0.0.0.0:16604,[::]:16604"
4	(I) 2025-02-02T13:19:19 - Peer ID: "-qB5030-"
5	(I) 2025-02-02T13:19:19 - HTTP User-Agent: "qBittorrent/5.0.3"
6	(I) 2025-02-02T13:19:19 - Distributed Hash Table (DHT) support: ON
7	(I) 2025-02-02T13:19:19 - Local Peer Discovery support: ON
8	(I) 2025-02-02T13:19:19 - Peer Exchange (PeX) support: ON

23	(I) 2025-02-02T13:19:19 - Successfully listening on IP. IP: "::1". Port: "UDP/16604"
24	(W) 2025-02-02T13:19:19 - Couldn't load IP geolocation database. Reason: The system cannot find the path specified.

25	(I) 2025-02-02T13:19:19 - Detected external IP. IP: "172.117.141.61"
26	(I) 2025-02-02T13:19:19 - IP geolocation database loaded. Type: DBIP-Country-Lite. Build time: Fri Jan 31 18:16:56 2025.
27	(I) 2025-02-02T13:19:19 - Successfully updated IP geolocation database.
28	(W) 2025-02-02T13:21:55 - UPnP/NAT-PMP port mapping failed. Message: "could not map port using UPnP: no router found"
29	(W) 2025-02-02T13:21:55 - UPnP/NAT-PMP port mapping failed. Message: "could not map port using UPnP: no router found"
30	(W) 2025-02-02T13:21:55 - UPnP/NAT-PMP port mapping failed. Message: "could not map port using UPnP: no router found"
31	(W) 2025-02-02T13:21:55 - UPnP/NAT-PMP port mapping failed. Message: "could not map port using UPnP: no router found"
32	(N) 2025-02-02T13:31:07 - Added new torrent. Torrent: "Sonic The Hedgehog 3 2024 1080p WEB-DL HEVC x265 5.1 BONE.mkv"
33	(N) 2025-02-02T13:32:56 - Added new torrent. Torrent: "8f1af13f41bc3b2efd25d2337941d085d8986d7a"
34	(N) 2025-02-02T13:33:02 - Torrent removed. Torrent: "8f1af13f41bc3b2efd25d2337941d085d8986d7a"
35	(N) 2025-02-02T13:34:03 - Added new torrent. Torrent: "05-star.-wars.-4-k-77.1080p.no-dnr.-35mm.x-264-v-1.0-et-hd"
36	(W) 2025-02-02T13:34:03 - URL seed DNS lookup failed. Torrent: "05-star.-wars.-4-k-77.1080p.no-dnr.-35mm.x-264-v-1.0-et-hd". URL: "/5/items/". Error: "05-star.-wars.-4-k-77.1080p.no-dnr.-35mm.x-264-v-1.0-et-hd url seed (/5/items/) failed: unsupported URL protocol"
37	(N) 2025-02-02T13:34:47 - Torrent download finished. Torrent: "Sonic The Hedgehog 3 2024 1080p WEB-DL HEVC x265 5.1 BONE.mkv"
38	(N) 2025-02-02T13:36:11 - Added new torrent. Torrent: "[FTUApps.com] - Windows 10 Home 22H2 Build 19045.4046 With Office 2021 Pro Plus (x64) En-US March 2024"
39	(N) 2025-02-02T13:39:11 - Added new torrent. Torrent: "Hans Zimmer - The World of Hans Zimmer – Part II A New Dimension (2025) [24Bit-48kHz] FLAC [PMEDIA]"
40	(N) 2025-02-02T13:39:44 - Torrent stopped. Torrent: "[FTUApps.com] - Windows 10 Home 22H2 Build 19045.4046 With Office 2021 Pro Plus (x64) En-US March 2024"
41	(N) 2025-02-02T13:40:06 - Torrent stopped. Torrent: "Sonic The Hedgehog 3 2024 1080p WEB-DL HEVC x265 5.1 BONE.mkv"
42	(N) 2025-02-02T13:40:14 - Torrent removed. Torrent: "Sonic The Hedgehog 3 2024 1080p WEB-DL HEVC x265 5.1 BONE.mkv"
43	(N) 2025-02-02T13:43:06 - Torrent download finished. Torrent: "Hans Zimmer - The World of Hans Zimmer – Part II A New Dimension (2025) [24Bit-48kHz] FLAC [PMEDIA]"
44	(N) 2025-02-02T13:46:40 - Torrent download finished. Torrent: "05-star.-wars.-4-k-77.1080p.no-dnr.-35mm.x-264-v-1.0-et-hd"

45	(N) 2025-02-02T13:47:03 - Torrent removed. Torrent: "Hans Zimmer - The World of Hans Zimmer – Part II A New Dimension (2025) [24Bit-48kHz] FLAC [PMEDIA]
46	(N) 2025-02-02T13:47:06 - Torrent removed. Torrent: "05-star.-wars.-4-k-77.1080p.no-dnr.-35mm.x-264-v-1.0-et-hd"
47	(N) 2025-02-02T13:47:21 - qBittorrent termination initiated
48	(N) 2025-02-02T13:47:21 - Saving resume data completed.
49	(N) 2025-02-02T13:47:22 - BitTorrent session successfully finished.
50	(N) 2025-02-02T13:47:22 - qBittorrent is now ready to exit
